### Oklahoma Creative Communities

Ponca City Main Street has been invited to be a part of the Creative Oklahoma Communities Project. Creative Oklahoma defines this new project as a group of engaged citizens, across all sectors and within a defined geographic region, that come together as a thought leader group with a commitment to a creative problem solving process whereby new ideas, that have value and did not exist before in the community, will be generated and implemented.

Each community determines priority issues and ideas that will grow the economic base of the community and improve quality of life for all citizens and then works together on the implementation plan.

Please take the survey listed below and tell us what you'd like to see happen in downtown Ponca City.

If you'd like to be a part of this project as it unfolds, reply to this email and let me know! We will add you to the contact list and keep you up to date on future meetings and progress.
